OFFICE OF LEGISLATIVE COUNSEL

Wednesday - 24 June 1964

25X1

1. [] Talked with Russ Blandford regarding arrangements for a visit to the Agency by Chairman Vinson in view of his retirement from the Congress. Mr. Blandford made a number of suggestions, one of which was that we not take this up with Mr. Vinson until after 21 July. Mr. Blandford's suggestions have been noted and we will work with him in making preparations.

25X1

2. [] Picked up from Representative John Brademas a draft copy of a study on trends of graduate education in the Soviet Union. Mr. Brademas said he planned to ask the Chairman of the House Education and Labor Committee, of which he is a member, to have this report published as a Committee print. However, in the national interest, as well as his own, he was interested in having it reviewed for accuracy. He said he was sending a copy to the Massachusetts Institute of Technology and would appreciate our people taking a look at it. I told the Congressman we could be of assistance on this on a non-attributable basis. The copy has been forwarded to ORR.
